

What's In Your Logbook?

What is your idea of airworthiness? Who is responsible for the airworthiness of the aircraft you fly? How do you carry out that responsibility? The FAR's require that an aircraft is "Airworthy" before a pilot can legally fly it! How can you be sure your aircraft meets this requirement? What inspections are required? How can you determine that they have been accomplished? What about ADs, STCs, 337 forms? Join us to learn the answers to these questions. Our featured speaker will be Bill Schlak, CFI, FAASTeam Representative, and aircraft owner.

Directions: Please see map link for directions, the Penn State Hangar is just past the General Aviation Terminal on Fox Hill Road.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
